Vikings were members of Scandinavian bands of sea rovers who launched a series of devastating and successful raids on England, France, Germany and many other European countries. The Vikings were adventurous people who loved war and fighting. They were skillful, daring seamen and efficient ship builders. The Vikings or Northmen, had an everlasting influence on the countries they visited. The development of Europe was strongly influenced by the strong will of the Viking warriors.

The title of the West High Yearbook, Valhalla, is a word from the Viking language and folklore meaning, "the promised land of the Vikings."

kern county

the land of magic

ONE HUNDRED YEARS OF PROGRESS

IN THE GREAT SAN JOAQUIN VALLEY

On September 10, 1863, Colonel Thomas Baker, purchaser and owner of certain reclamation rights in the San Joaquin Valley, arrived and settled in an area known as "swamp and overflowed land."

The site of Bakersfield was then an area covered with undrained swamps, forested with willows, cottonwoods, and sycamore trees.

Settlers from Visalia crossed the Kern River at Gordon's Ferry on their way south. They stopped in the settlement of Kern Island, the village growing up about "Colonel Baker's field." This settlement was to become known as Bakersfield and the county seat.

Kern County was created on April 2, 1866, by a noted secessionist, Asbury Harpending. The name Kern was derived from the Kern River flowing through the valley, and the county was formed out of Tulare and Los Angeles counties as they existed in 1866.

Bountiful crops growing in the fertile soil, cattle fattening on the hillsides, oil flowing from thousands of wells and other vital minerals being mined or quarried... this is Kern County today. With cotton in the lead of all the crops, then potatoes comprising three quarters of the entire California crop, Kern County displays its agricultural wealth. Closely following are livestock, alfalfa, grapes, grain, fruits and vegetables.

Truly a "Land Of Magic," Kern County is a rare combination of economic progress and business activity closely related to oil and agricultural enterprises. Cultural life of Kern County is constantly being enriched with fine art programs, theatre and year-round youth activities.
